Transcript

Hello everyone and welcome back to Love English podcast.
I'm Leo and I'm Emma.
Today we have a fun topic.
We're going to talk about our favorite type of music.
Music is something everyone loves.
So Emma, what kind of music are you really into?
I am a big fan of pop music.
I love songs that are catchy and have a good beat.
They always put me in a good mood.
That is true.
Pop music is great for energy.
Exactly.
What about you, Leo?
What is your favorite genre?
I actually prefer jazz.
I love the sound of the saxophone and the relaxing rhythm.
It helps me focus when I work.
Jazz is very sophisticated.
Do you listen to it every day?
Yes, usually in the evenings.
It helps me unwind after a long day.
That sounds lovely.
Now, let's look at the useful phrases from our chat to talk about likes.
You asked, "What kind of music are you into?"
And I answered, "I am really into" or "I'm a big fan of."
These are better than just saying, "I like."
We also use the word catchy.
This describes a song that is easy to remember and sticks in your head.
And you use the word genre, which just means the type or style of music.
We hope this helps you describe your favorite tunes.
Thanks for listening to Love English podcast.
See you next time.
Goodbye everyone.
