- ○ a.) Apples and bananas
- ○ b.) Strawberries and grapes
- ○ c.) Both a and b

Transcript

Cooking is my favorite hobby. It is very fun to cook new recipes and try new food. My favorite food to cook is Italian food. I like to make pizza, lasagna, and pasta because I love tomatoes and cheese. I also like British food. The typical British foods are fish and chips, the full English breakfast, and the roast dinner. The full English breakfast includes toast, bacon, sausages, a fried egg, beans, fried tomatoes, and mushrooms, etc. It is delicious. When I was a child, my dad cooked for the family because he is a chef. His favorite dinner to cook is a vegetable curry because he likes spicy food. My brother is a chef too, so when we have a family dinner, my dad and my brother cook. My family likes eating healthy food every day, especially fruits and vegetables. We only eat unhealthy food like hamburgers, chips, or hot dogs at the weekend. I also like to prepare special drinks for my friends. I can make lemonade or cocktails for them. My favorite fruits to use in the drinks are lemons, oranges, pineapples, and limes. We normally drink these drinks before dinner, and during the dinner, we drink water, juice, or wine. What do you normally drink? I also love preparing desserts. Desserts are the food that you have after your dinner. My favorite desserts to eat at a restaurant are cupcakes and carrot or chocolate cakes. When I am at home, if I am hungry after dinner, I normally have a dessert at home. I always have some fruit like some strawberries, some grapes, an orange, an apple, or a banana. If you have liked this video, please give it a thumbs up and subscribe to my channel.
