Transcript

I recently visited Fort Langley because I heard it has Gilmore Girl vibes and it's the perfect fall stroll and they are 100% correct because on the street of Glover Road is filled with coffee shops, flower shops, antique stores, and so much more.

Some really cool spots to check out is Wendell's Bookstore and Cafe and across the street they have TAP (True Aromatherapy Products). Super cool store!
We ended up buying some bath salts from here.

There's also a mason jar merchant where you can create your own mason jar design. They also have a bunch of different antique stores to check out, like the Village Antiques Mall which is filled with so much stuff and the Country Lane Antiques.
I would highly recommend checking this area out, especially during the fall season.
