Transcript

some people are good with money some people are bad with money but in the world there are some people that are geniuses with money this is the story of four people that are so good at either money-making or money-saving and trust me their unique stories will inspire you to become better at money [Music] the guy next to me is worth your time because this extreme guy doesn't buy anything I don't daniel has a lot of money but he doesn't spend any of it he is what people call a freegan instead of spending money on food Daniel only gets it for free at restaurants he eats other people's unfinished meals at home he eats whatever his neighbors have left over he collects whatever fruit stores leave unsold and even goes at night to dive in dumpsters with friends and I kid you not to find the most incredible things for free PlayStation clothes watch backpack shampoos umbrellas scratch and even one person's trash is another person's treasure this guy with a hundred and fifty thousand dollars in savings realized that the only way his savings could last forever is if he doesn't spend any of it [Music] before we continue I want to stop you for a second and say thank you to Skillshare for sponsoring this video I was so happy that they sponsored this video because it's all about personal finance and money management see Skillshare essentially has thousands and thousands of courses that are about anything in the world that you want to learn so on Skillshare you can take this course about intro to personal finance or this course or this course if you click on my link you get to three months of premium membership we should allow you to sort of start learning on Skillshare I'm actually very happy I signed up for Skillshare six years ago when I was trying to learn more about web development skill share is actually very very affordable and membership can be less than $10 a month less than $10 a month to get education that otherwise you have to spend thousands and thousands of dollars on don't just watch people make money or save money or be creative with money be that yourself anyway back to the videos [Music] this video is a true story yesterday I was walking with my friend Jay this is Jay accidentally I dropped one coin on the ground and to be honest I had no interest in picking it up I hate carrying these Cohen's it was only like 10 cents then I look back only to see Jay on the floor picking it up and saying thank you and putting it in his pocket I was surprised not because he did that but because Jay is a multi-millionaire with a 40 million dollar company yet he cared to pick up my coins because according to him it's not about the money it's about the attitude toward the money and his attitude is that not a single coin should go to waste and this millionaire is not cheap he spends money on his family he spends money on his friends and a lot

of money on his business but he doesn't waste any money not even the annoying coins and maybe just maybe his attitude is right he's the millionaire and I'm not that's what it is see you tomorrow [Music] what I'm holding right now is normal paper but what if I told you that this paper is made out of poop real elephant poop someone in the country of Sri Lanka took something that's very worthless poop and made a business out of it turns out elephants in real life are vegetarian and they produce food filled with fiber that's honestly not that disgusting so someone took this poop dried it cleaned it sided a spread it compressed it smooth it cut it combined it and made it into a real paper product that is sold in over 30 countries all of this comes from the proof of eight elephants only because each one of them proves sixteen times a day to make this paper you don't need to cut down any forest like this you give jobs to people who are otherwise unemployed and you build a business there is no better way to describe this they made a business out of that's a minute [Music] hi the kid you see next to me is only 14 years old but this kid started a bank hi my name is Jose and this is my story Jose saw that a lot of his classmates spend money but they don't save money it's important to save money so at the age of 12 cause they started a real Bank in Peru the turns his classmates allowances into a savings account with its own debit card the first bank in our is started by a kid she's been got so popular he found 3,000 customers saved fifty thousand dollars and hired eight employees that are older than him he also built a system that helps kids at make money by recycling their plastic kids can get plastic waste go to his bank give plastic and get money in their account it's a wing wing as we adults are busy spending money let's look at this skill who built an entire legal banking system that saves money and saves the environment that's one minute see you tomorrow I hope you enjoyed this video I definitely enjoyed making it and I also spent a lot of money trying to make it anyway thank you Skillshare again for sponsoring this video this wasn't easy to make but I hope it was easy to watch and I know it will be even easier to take the skill share classes and become better at money management yourself thank you so much that's a few minutes see you tomorrow [Music]
