This video is a true story. Yesterday I was walking with my friend Jay. This is Jay. Accidentally I dropped one coin on the ground and to be honest, I had no interest in picking it up. I hate carrying these coins and it was only like 10 cents. Then I looked back only to see Jay on the floor picking it up and saying, "Thank you." and putting it in his pocket. I was surprised not because he did that, but because Jay is a multi-millionaire with a $40 million company, yet he cared to pick up my coins. Because according to him, It's not about the money, it's about the attitude towards the money. And his attitude is that not a single coin should go to waste. And this millionaire is not cheap. He spends money on his family, he spends money on his friends and a lot of money on his business, but he doesn't waste any money, not even the annoying coins. And maybe, just maybe, his attitude is why he's the millionaire and I am not. That's 1 minute. See you tomorrow. My friends, if you enjoyed watching that video, then I think you will love reading my book. It's called Around the World in 60 Seconds and now it's available in every country in the world. So you can order it and you can have it in 7 days or less. This book is really special because it took me 1,000 days to write and it took me 64 countries to travel to and 10,000 people to talk to. Well, all these people were involved in writing this book. This has stories that do not yet exist on the internet. I go super deep into these stories and into these topics. This is a really cool book that got five out of five stars ratings on Amazon. If you like it, and I think many people did, you can click on the link below to get it. I super appreciate your support. I think this will make a great gift for yourself, for your family, or just for you to read because now you cannot travel, so this should help you travel around the world at least from your bedroom.
